Surprise May Develop.

It was learned at dry headquarters

today that the conference will have

a direct bearing on the growing pub-lic opinion in favor of light wines

and beer. Although authorities as high as the United States Supreme

Court have passed judgment on the

quantity of alcohol which beer may

contain, and on conditions under

which beer and wines may be manu-

actured and sold, the prohibition

enforcement heads predict a surprise

in this direction.

All were silent, however, on the

exact outcome of the conference in

regard to wines and beer. It may be, they said, that wider latitude will

be allowed in manufacture; on the other hand, the reverse is possible.
